OPERATIONALIZE LEADERSHIP STRUCTURE & BUILD COMMUNITY NETWORK	-Convene diverse partners (including BIPOC & PLEH) across geography & build collective will -Establish governance & decision making structure for a guiding coalition -Set shared, measurable, time bound system-wide goals -Engage elected officials to build will & clear the path	D1.1 Backbone partnership has a model for cross-community engagement, coordination, peer learning and celebration	Nice to have				
		D1.2: At least 90 % of regional coverage, as measured by communities (CoCs and BoS subregions) engaged in and adopting strategic approach	Must have				
		D1.3: Local team designs and approves long-term Aim and short term goals focused on population-level outcomes	Must have				
		D1.4: Partners publicly and accurately discuss /advocate for regional system change	Must have				
		D1.5: Leaders from 5 or more local level entities (government or other) meet regularly to advance goals	Must have				
		D1.6 Backbone org. serves as the thought leader/ standard bearer for strategic approach	Nice to have				
		D1.7 Mechanisms are in place for regular engagement with elected officials	Nice to have				
		D1.8 Governance structure is documented, implemented and iterated as needed	Must have				
Primary Driver 2	Secondary	Indicator		Definition/ Example	STATUS		
		D2.1: Backbone partners adopt aligned measures for Quality Data and Functional Zero	Must have				

BUILD QUALITY DATA SYSTEMS	-Activate partners to build comprehensive, real-time, person-specific data -Develop local/regional performance management infrastructure -Adopt end state, measurement & data standards, including racial equity -Collect qualitative and other user experience data to inform system changes	D2.2: Increase in % of total teams/communities (CoCs and subregions) that have taken a data scorecard	Must have				
		D2.3: Data Infrastructure (reporting and visualization) enabled for data reporting across the entire geography and/or for multiple populations	Must have				
		D2.4: At least one partner-led local team has reached quality data threshold (subregion or population)	Proof Point				
		D2.5: Quality Data achieved for at least one population (local or regional depending on context)	Proof Point				
		D2.6 Disaggregated by-name list data is available and shared at local and regional levels	Nice to have				
		D2.7 Partners view backbone organization as technical assistance expert related to data capacity	Nice to have				
		D2.8 Mechanisms in place for regular collection of qualitative data related to user experience	Nice to have				
Primary Driver 3	Secondary	Indicator		Definition/Example	STATUS		
	-Activate strategic partnerships (foundations, BIPOC-led, etc) to align behind what's working -Build partnerships with	D3.1: Backbone partnerships leverage additional philanthropic, public or private \$\$	Nice to have				
		D3.2: Backbone partners align investment/resource decisions with quality data & shared measures	Must have				
		D3.3 Backbone partners cultivates broad and authentic relationships, fostering ownership across the community	Nice to have				

ALIGN RESOURCES AND STRATEGIC PARTNERSHIPS	Anchor Institutions & upstream partners -Develop mechanisms for funding alignment -Identify & help close funding gaps for system-level impact	D3.4 Equity is centered in funding decisions and BIPOC leaders are represented at tables across backbone and partner orgs.	Nice to have				
		D3.5 Framework is implemented for understanding the local/regional funding landscape to facilitate alignment	Nice to have	-			
		D3.6: Funders align and/or ask leaders and/or providers to align with strategic approach, practice, and/or goals	Must have	-			
Primary Driver 4	Secondary	Indicator		Definition/Example	STATUS		
ADOPT CULTURE OF IMPROVEMENT	-Ensure data is transparent & used for action (including Coordinated Entry improvement) -Scale up evidence-based best practices (program & system) -Lead coaching & adoption of standards, tools & model using QI framework -Implement an evaluation & learning system w/a robust feedback loop -Provide training and capability building in core competencies for partners	D4.1: Backbone partner leads implementation in partner-led communities	Must have				
		D4.2: Backbone partners have a regular feedback loop to surface information from local/population-based teams and share back on local/system-wide level action and progress	Must have				
		D4.3: Backbone org. provides tone setting leadership in alignment with established sector best practices and aligns resources where appropriate	Must have				
		D4.4: Backbone shifts collective focus from problem solving to co-creation of the future.	Nice to have				
		D4.5 Backbone provides training and capability building opportunities for community and coalition partners aligned with strategic aims	Nice to have				
		D4.6 At least one backbone partner-led team has achieved FZ for at least one subpopulation	Proof Point				

Primary Driver 5	Secondary	Indicator		Definition/Example	STATUS		
PROVIDE OPERATIONAL SUPPORT	-Ensure dedicated system staffing capacity matched w/scale -Provide project management & coordination for guiding coalition -Drive strategic communications & narrative change on proven solutions -Support local advocacy & policy change efforts -Ensure alignment with basic CoC requirements & activities	D5.1: Backbone partner secures dedicated staff capacity for Systems work (minimum .5 FTE)	Must have				
		D5.2: Backbone partners support scaling up of local-level system staffing capacity	Nice to have				
		D5.3 Backbone org. advocates for an aligned policy agenda	Nice to have				
		D5.4 Backbone org. runs/co-facilitates taskforce meetings, sets agenda and provides next step follow through for local projects	Nice to have				
		D5.5 Backbone org. articulates the call to action, a sense of urgency and produces related communications	Must have				
		D5.6 Backbone either is or coordinates with the Continuum of Care	Must have
